

TELEHEALTH SERVICE SIGN UP FORM

MARCH 16, 2020

START USING TELEHEALTH RIGHT AWAY

Considering the recent events with COVID-19, WRS has expedited the release of a new Telemedicine Module with the Patient Check-In functionality. We are pleased to offer this module to current WRS clients at no cost until June 30, 2020.

This new functionality, originally scheduled for release later this year, is currently being used by a select group of practices. We'd like to extend the opportunity to all WRS clients to make use of this new functionality and offer feedback.

It is our sincere hope that the use of this tool will enable our provider community to more safely and effectively offer patient care during the Covid-19 Pandemic.

SIGN UP TODAY

This service is *free until June 30th, 2020*. Please fill out your information below, save the file, and email this back to telehealth@wrshealth.com.
